Education

Dickinson College

Bachelor's degree, Political Science

September 2023 - June 2027

Carlisle, Pennsylvania

Study Abroad - DIS Copenhagen

Focus in International Humanitarian Law & Armed Conflict

January 2026 - May 2026

Copenhagen, Denmark

Relevant Coursework

- American Foreign Policy
- American National Security Policy
- Constitutional Law
- Marketing in a Global Context
- Data Structures & Problem Solving
- Global Security
- Political Philosophy
- Research Methods

Experience

Undergraduate Student Researcher

Deep Neural Networks Lab - Dickinson College

Carlisle, Pennsylvania

May 2026 – Present

- Investigating wide beam search for grammar-constrained decoding in small language models, measuring how inference-time search budget substitutes for model parameters on structured generation benchmarks.

Strategic Wargaming Intern

The United States Army War College

Carlisle, Pennsylvania

May 2026 – August 2026

- Working in the Department of Military Strategy, Planning, and Operations under the School of Strategic Landpower to operationalize wargaming systems and scenarios through a JADO (Joint All-Domain Operations) lens, replicating the Air, Space, Cyber, Electronic Warfare, and Special Operations Forces domains.

Quantitative Reasoning Associate

Department of Academic Technology - Dickinson College

Carlisle, Pennsylvania

June 2025 – December 2025

- Collaborating with Academic Technology Director James D'Annibale to design and develop "INTD 250 (AI as a Partner)," a 15-week interdisciplinary course exploring generative AI integration in academic work.
- Assisted in teaching a curriculum covering AI fundamentals, ethical considerations, and practical applications in writing, study planning, data analysis, and presentations for students across all disciplines and technical backgrounds.

AI Governance Intern

Hearst Corporation

June 2025 – August 2025

New York City, New York

- Compiled comprehensive reports on the NIST RMF 1.0, EU AI Act and ISO 42001, analyzing AI governance structures and creating internal guidance on developing AI technologies to support enterprise risk management & governance initiatives.
- Leveraged Azure Functions and GPT-5 to orchestrate scheduled cloud-based aggregation and AI-driven summarization of competitive, cybersecurity, and technology news, delivering targeted signal briefs and industry updates to stakeholders.
- Built an automated vendor research platform using Svelte 5, Claude 4 Sonnet, and Rust that intelligently scrapes company data from web sources and documents, stores structured results in Apache Solr for fast retrieval and analysis, with RabbitMQ for distributed video transcription task processing.

Dana Research Assistant

Data Analytics Department - Dickinson College

September 2024 – July 2025

Carlisle, Pennsylvania

- Optimizing a TensorFlow (Keras) pipeline with CUDA acceleration for real-time classification of poker cards and actions from video footage, achieving a 42.68% speedup on inference.
- Leveraging EasyOCR and OpenCV for real-time image and video analysis, specifically extracting player names, actions, and table cards from poker footage.

Skills

Professional Skills: Open Communication, Team Leadership, Partnership Development, Product Management

Coding Languages: Python, Javascript, Rust, Bash

Certifications: AWS Certified Cloud Practitioner, OCI 2025 Certified Foundations Associate, OCI 2025 Certified AI Foundations Associate

Leadership / Extracurricular

Stealth Startup

June 2026 – August 2026

Consulting Member of Technical Staff

Remote

- Building an Agentic Open-Source Intelligence (OSINT) startup, developing relationship mapping and threat intelligence agents with LangGraph and Kubernetes.

Burgess Institute for the Global Economy - Dickinson College

October 2024 – Present

Student Ambassador & Project Coordinator

Carlisle, Pennsylvania

- Partnered with the Executive Director and worked with Student Ambassadors to create marketing campaigns, improve organizational strategy, and run successful events for the Burgess Institute at Dickinson College.
- Managed the planning and execution of DevilHacks, Dickinson's first ever 12-hour hackathon, coordinating logistics for over 27 participants who developed solutions to real-world problems in their daily lives.

SkyCrypt

August 2020 – December 2025

Member of Technical Staff (Open Source Project)

Remote

- Scaled infrastructure to support 50,000 monthly active users, processing ~40M API requests and 5TB average transfer monthly through optimized caching and request batching.
- Leveraged Terraform and Kubernetes to streamline deployment, scaling, and management of services across A/B test environments.
